

## Virtual Public Deliberation on Prioritizing COVID-19 Vaccine Distribution:

### Pre- & Post-Survey

*Please take a moment to answer the questions below.*

1. Many New Yorkers work in industries or workplaces that are considered essential. When the COVID-19 vaccines first become available, there may not be enough for all essential workers. Assuming this is the case, in what order should the following essential worker occupations be given the vaccine? Please number the following occupations, with 1 being who you think should get the vaccine first and 6 being who you think should get the vaccine last.

- Bus drivers
- Child protective workers
- Construction workers
- Elementary school teachers
- Grocery store workers
- Sanitation workers

*It has been widely reported that the risk of severe disease or death from COVID-19 is higher for people who have one or more of the following characteristics:*

- *Older age*
- *2 or more health conditions (for example, heart disease)*
- *African American/Black*
- *Latinx*
- *Live in neighborhoods with limited resources (for example: more crowded, worse access to transportation)*

2. Should the Department of Health consider the above characteristics when they decide who gets the vaccine first?

- Yes
- No

3. Assuming the characteristics below are taken into account when deciding who gets the COVID-19 vaccine, please rank them in order from most to least important to consider when deciding who gets the vaccine (1 is most important and 4 is least important).

- Age
- Having a health condition that will increase risk
- Living in a neighborhood with limited resources (for example, crowded or with poor access to transportation)
- Race or ethnicity

4. Is it more important to prioritize COVID-19 vaccinations for groups of people who (1) are more likely to spread the disease to others, or (2) are more likely to get very sick or die from the disease?

- Those more likely to spread the disease to others
- Those more likely to get very sick or die from the disease

5. Once a COVID-19 vaccine is approved it will be available at no cost. Will you get a COVID-19 vaccine as soon as one becomes available?

- Definitely yes
- Probably yes
- Probably not
- Definitely not
- Don't know

*The following three questions will be used to create a personalized study ID that will allow the study team to maintain your confidentiality.*

6. What is the number of your birth month? (For example, if your birthday is in April, the number would be "4.") \_\_\_\_\_

7. What are the first two numbers in your home address? If your home address has only 1 number, just give the one number. (For example, if you live at 220 Spring Road the number would be "22." If you live at 5 Jane Street the number would be "5.") \_\_\_\_\_

8. What is the first letter or number of your email address? (For example, if your email address is mscherer@nyam.org, the first letter would be "m." If your email address is 2020ms@gmail.com the first number would be "2.") \_\_\_\_\_

#### QUESTIONS TO ADD TO ABOVE SURVEY FOR POST-SURVEY:

*We would like to know what you think about the public deliberation you participated in over the past 2 days.*

*Please tell us the degree to which you agree with the statements in questions 11 and 12.*

11. There was too much information presented in the public deliberation.

- Agree strongly
- Agree
- Disagree
- Disagree strongly

12. The facilitators made sure that all opinions were considered during the public deliberation.

- Agree strongly
- Agree
- Disagree
- Disagree strongly

9. How likely are you to tell your friends or family members what you learned during the public deliberation? (Select one)

- Very likely to tell friends or family
- Likely to tell friends or family
- Unlikely to tell friends or family
- Very unlikely to tell friends or family

10. I would participate in a process like this again. (Select one)

- Agree strongly
- Agree
- Disagree
- Disagree strongly

11. Is there anything else you would like to tell us about your experience?

---

---

---

12. You will receive a \$150 electronic gift card via email in the next week as a thank you for your participation in this event. The email will come directly from Target, Amazon, or a staff member from the New York Academy of Medicine depending on which card you choose (so please be on the lookout!). Which of the following gift cards would you like to receive?

- Amazon (\$150)
- Target (\$150)

Please confirm the email address where you would like the incentive to be sent: \_\_\_\_\_

Thank you!
