Strongly disagree.....	10	11	5
AGREE (NET).....	63%	60	72
DISAGREE (NET).....	16	19	12

**Q43.** The FDA has given emergency authorization for three COVID-19 vaccines in the US, including a vaccine by Johnson and Johnson that provides protection from COVID-19 in a single dose. So far, 6.5 million doses of this vaccine have been administered. In response to reports that six women who received the Johnson and Johnson vaccine have had rare blood clots, the FDA and CDC recommended a pause in the administration of this vaccine. Does this announcement make you...?

	<u>Total</u>	<u>TRUMP</u>	<u>BIDEN</u>
More confident in the vaccines.....	43%	35%	56%
Less confident in the vaccines.....	29	36	19
Unsure.....	28	29	25

**Q44.** The following are several statements about the Johnson & Johnson COVID-19 vaccine. Given the decision by the FDA and CDC to pause the use of the J&J COVID-19 vaccine, which of the following statements would have the greatest impact on you believing the J&J COVID-19 vaccine is safe?

	<u>Total</u>	<u>TRUMP</u>	<u>BIDEN</u>
Safety monitoring is working, and the government is prioritizing the safety of Americans. The safety monitoring system for vaccines identified the issue as soon as it arose, and this was shared with the public transparently, showing a commitment to safety.....	21%	15%	25%
As of today, less than 10 people - total -- out of the 6.8 million who have gotten the J&J COVID-19 vaccine to date have reported serious blood clotting side effects....	18	19	18
These events are extremely rare. The chance of being struck by lightning is literally twice that of getting a blood clot from the J&J COVID-19 vaccine.....	16	17	16
The risk of getting a serious blood clot from the J&J COVID-19 vaccine is less than of getting a serious blood clot from birth control medication, smoking, or for those hospitalized with COVID-19.....	14	12	18
The J&J COVID-19 vaccine was paused because the treatment for these blood clots is unique from how clots are typically managed; the FDA and CDC want to make clear how they should be treated.....	11	14	9
Thus far, the small number of serious blood clotting side effects were women between the ages of 18-48.....	10	10	8
If your own doctor told you the J&J COVID-19 vaccine is safe to take.....	9	13	6

**Q44/45.** The following are several statements about the Johnson & Johnson COVID-19 vaccine. Given the decision by the FDA and CDC to pause the use of the J&J COVID-19 vaccine, which of the following statements would have the greatest impact on you believing the J&J COVID-19 vaccine is safe? **[COMBINED]**

	<b>Total</b>	<b>TRUMP</b>	<b>BIDEN</b>
As of today, less than 10 people - total -- out of the 6.8 million who have gotten the J&J COVID-19 vaccine to date have reported serious blood clotting side effects....	36%	37%	36%
Safety monitoring is working, and the government is prioritizing the safety of Americans. The safety monitoring system for vaccines identified the issue as soon as it arose, and this was shared with the public transparently, showing a commitment to safety. ....	36	27	42
These events are extremely rare. The chance of being struck by lightning is literally twice that of getting a blood clot from the J&J COVID-19 vaccine.....	34	42	29
The risk of getting a serious blood clot from the J&J COVID-19 vaccine is less than of getting a serious blood clot from birth control medication, smoking, or for those hospitalized with COVID-19 .....	31	31	34
The J&J COVID-19 vaccine was paused because the treatment for these blood clots is unique from how clots are typically managed; the FDA and CDC want to make clear how they should be treated .....	26	23	27
