

**PH WINS**

PUBLIC HEALTH WORKFORCE  
INTERESTS AND NEEDS SURVEY

# 2021 SUMMARY REPORT:

Nurses

# ACKNOWLEDGEMENT & CITATION

---

The Public Health Workforce Interests and Needs Survey (PH WINS) was developed by the de Beaumont Foundation and the Association of State and Territorial Health Officials to understand the interests and needs of the state and local governmental public health workforce in the United States, and was fielded in 2014, 2017, and 2021. For more information, visit [www.phwins.org](http://www.phwins.org).

# ABOUT THIS REPORT

---

This report summarizes key findings about the **public health nurses working in governmental public health** from the 2021 Public Health Workforce Interests and Needs Survey (PH WINS).

- Key findings are organized by the main sections of PH WINS 2021:
  - Demographics
  - Workforce Characteristics
  - Staying & Leaving
  - Training Needs
  - Engagement & Satisfaction
  - Well-being

# WHAT IS PH WINS?

---

## *Public Health Workforce Interests and Needs Survey*

- PH WINS, a partnership between the de Beaumont Foundation and the Association of State and Territorial Health Officials (ASTHO), was fielded in 2014, 2017, and 2021.
- **First and only nationally representative source of data** about the governmental public health workforce.
- Supports the governmental public health workforce in **understanding their strengths and gaps** and informs future investments in workforce development efforts.

# 2021 METHODS

---

- PH WINS 2021 was distributed via web survey to **137,446 state and local governmental public health workers:**
  - 47 state health agencies
  - 29 big city health departments
  - 259 local health departments
- The PH WINS 2021 instrument had five domains: workplace environment, COVID-19 response, training needs, addressing public health issues, and demographics.
- One important change in 2021: non-permanent employees of centralized state health agencies were included in the nationally representative data set.

# WORKFORCE DEFINITION

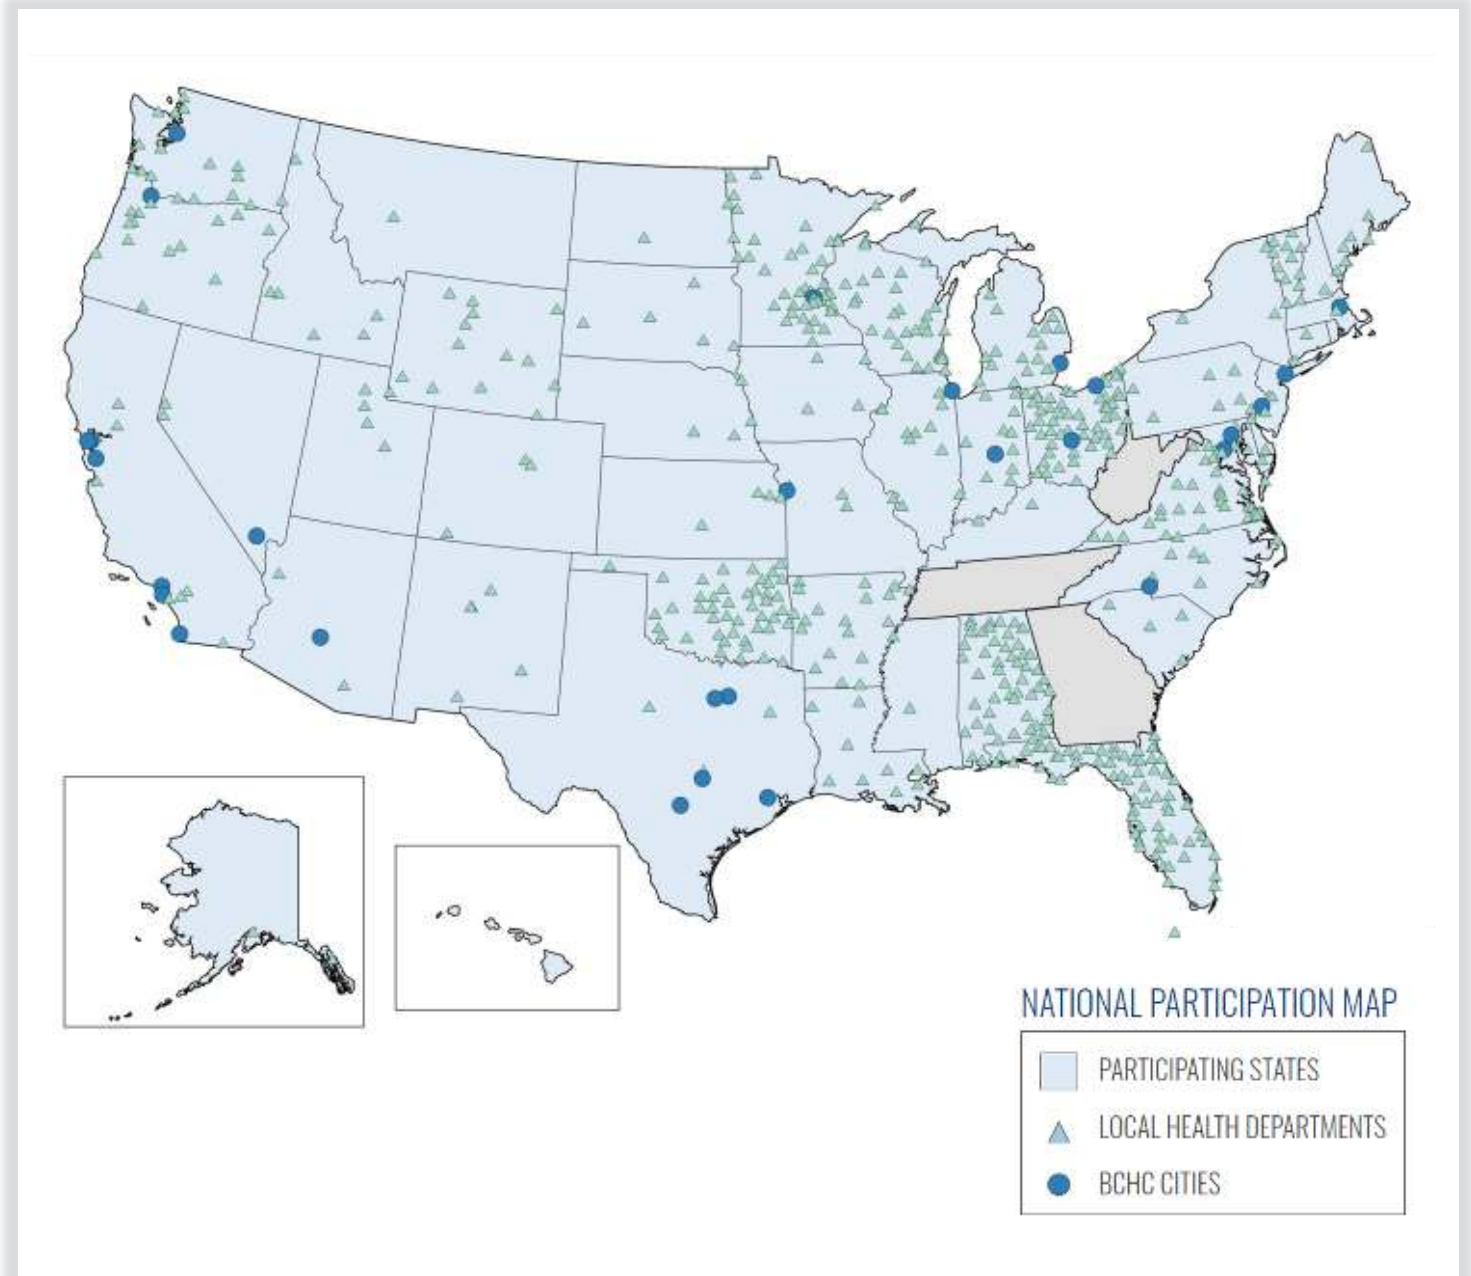

---

- Workforce groups are defined by a combination of responses to PH WINS questions on program area, job classification, education, and certifications.
- **Nurses** include PH WINS respondents who selected the following job classification(s), program area(s), or certification:
  - Job classifications: nursing and home health aide, other nurse-clinical services, registered nurse – public health or community health nurse, registered nurse – unspecified, licensed practical or vocational nurse, or nurse practitioner
  - Educational attainment: associates degree in nursing, bachelors of science in nursing, masters of science in nursing, or doctor of nursing practice
  - Certification: nursing certification

# NATIONAL PARTICIPATION

- Nationally, the survey was completed by 44,732 individuals, for a **35% response rate**.
- Response rates varied by frame:
  - **SHA: 34%**
  - **Big Cities: 28%**
  - **Other locals: 52%**
    - **Locals in Regions V and X\*: 56%**

\*HHS Regions V and X participated in the PH WINS for All pilot programming, recruiting all locals in those regions, regardless of size, to participate in PH WINS.

# NATIONAL PARTICIPATION

- Nationally, the survey was completed by 44,732 individuals, for a **35% response rate**.

Response frame:

**Nurses account for 18% of the national governmental public health workforce.**

- Small Cities:** 28%
- Big Cities:** 28%
- Other locals:** 52%
  - Locals in Regions V and X\*:** 56%

\*HHS Regions V and X participated in the PH WINS for All pilot programming, recruiting all locals in those regions, regardless of size, to participate in PH WINS.

# 2021 KEY FINDINGS: DEMOGRAPHICS

---

- PH WINS respondents self-reported demographic (personal) characteristics like their gender, race/ ethnicity, and age.
- Respondents also self-reported the highest level of education attained and whether they have a specialized degree in public health.

# DEMOGRAPHICS

- **91%** of nurses **self-identifies as a woman.**
- **More than half** of nurses **self-identifies as White.**

## GENDER COLLAPSED NURSES: ALL EMPLOYEES

## RACE & ETHNICITY COLLAPSED NURSES: ALL EMPLOYEES

# DEMOGRAPHICS

- Nearly half of nurses are between the ages of 31 and 50 years.

## AGE COLLAPSED NURSES: ALL EMPLOYEES

# EDUCATIONAL ATTAINMENT

- **26%** of nurses has an advanced degree.
  - 23% has a Master's degree.
  - 3% has a Doctoral degree.
- **6%** has a specialized degree in public health.

## EDUCATIONAL ATTAINMENT NURSES: ALL EMPLOYEES

## PUBLIC HEALTH TRAINING NURSES: ALL EMPLOYEES

# 2021 KEY FINDINGS: WORKFORCE CHARACTERISTICS

---

- PH WINS respondents were asked a series of questions related specifically to their job and the work they do, including:
  - Supervisory status
  - Job role
  - Primary program area
  - Tenure in public health overall, at their agency, and in their current job.
- Respondents also reported full-time/part-time status and salary information.

# SUPERVISORY STATUS/JOB ROLE

- **3 out of 4** nurses work in a **non-supervisory role**.
- **79%** of nurses worked in a **clinical and lab job role**.

## SUPERVISORY STATUS COLLAPSED NURSES: ALL EMPLOYEES

## JOB CLASSIFICATION NURSES: ALL EMPLOYEES

# PROGRAM AREA

- Two-thirds of nurses are distributed across **three primary program areas**:
  - **Communicable disease**
  - **Other health care**, including certain clinical services, immunizations, mental, oral, and school health, and substance misuse.
  - **Chronic disease & injury**

## PROGRAM AREA NURSES: ALL EMPLOYEES

# TENURE AT AGENCY

- **Half of nurses** in 2021 had served at their agency **for 5 years or less**.
- 12% had served 21 or more years.

## AGENCY TENURE NURSES: ALL EMPLOYEES

# 2021 KEY FINDINGS: STAYING & LEAVING

---

- PH WINS respondents were asked a series of questions related to their intent to leave or stay at their agency and whether the COVID-19 pandemic affected their decision.
- Respondents were also asked to select reasons why they intend to stay or leave.

# INTENT TO LEAVE/STAY

- **23%** of nurses are **considering leaving** their organization within the next year.
- 25% reported that the **COVID-19 pandemic impacted their decision** to stay or leave.
  - Among those who intend to leave, 43% said the pandemic impacted their decision (*data not shown*).

## INTENT TO LEAVE NURSES: ALL EMPLOYEES

## IMPACT OF COVID ON STAYING & LEAVING NURSES: ALL EMPLOYEES

# REASONS FOR LEAVING/STAYING

- Understanding employees' reasons for leaving is critical for improving recruitment and retention.
- **Top reasons for leaving** among nurses who intend to leave include:
  - **Work overload/burnout** (reported by 43%)
  - **Stress** (reported by 38%).

## REASONS FOR LEAVING NURSES: ALL EMPLOYEES

## REASONS FOR STAYING NURSES: ALL EMPLOYEES

# 2021 KEY FINDINGS: TRAINING NEEDS

- PH WINS respondents were asked to rate the day-to-day importance of and their own proficiency with 25-26 skill items, tailored for their supervisory level.
- Skills were collapsed into 10 strategic skill categories.
- A **training need** is a skill item reported as having **high importance, but low proficiency**.
- Identifying training needs can help support strategies to produce T-employees, or those who have depth in technical skills and breadth in strategic skills.

**FIGURE 2.**

**The Public Health T:**  
Complementing  
Specialized Skills  
with a Cohesive  
Cross-Cutting Skill  
Framework

Note: T-shaped employees have depth in specialized skills related to a specific program or topic area (e.g., communicable disease control, environmental public health, etc.) and breadth in cross-cutting skills that include the Strategic Skills and Core Competencies.

Source: de Beaumont Foundation. "Adapting and Aligning Public Health Strategic Skills,". March 2021.

# TRAINING NEEDS: OVERALL

The top 5 areas of training needs **across all supervisory levels** are:

- Budget and financial management
- Systems and strategic thinking
- Community engagement
- Change management
- Policy engagement

## TRAINING NEEDS NURSES: ALL EMPLOYEES

# TRAINING NEEDS: NON-SUPERVISORS

The top 5 areas of training needs **among non-supervisors** are:

- Budget and financial management
- Change management
- Community engagement
- Systems and strategic thinking
- Policy engagement

## TRAINING NEEDS: NON-SUPERVISORS NURSES: ALL EMPLOYEES

# TRAINING NEEDS: SUPERVISORS, MANAGERS, & EXECUTIVES

The top 5 areas of training needs **among supervisors, managers, & executives** are:

- Budget and financial management
- Systems and strategic thinking
- Community engagement
- Policy engagement
- Change management

## TRAINING NEEDS: SUPERVISORS, MANAGERS, & EXECUTIVES NURSES: ALL EMPLOYEES

# 2021 KEY FINDINGS: ENGAGEMENT & SATISFACTION

---

PH WINS respondents were asked to rate their agreement with several statements related to:

- Job, organizational, and pay satisfaction
- Perceptions about their workplace
- Perceptions about their supervisors
- Perceptions about their organization

# SATISFACTION

- Nurses are **largely satisfied** with their **job** (80%) and **organization** (68%).
- Less than half (47%) are satisfied with their pay.

## EMPLOYEE SATISFACTION NURSES: ALL EMPLOYEES

# PERCEPTIONS ABOUT ORGANIZATION

- Nurses' **overall perceptions of their organizations are positive.**
- However, there is room for improvement:
  - Just half of the workforce agrees that leadership staff and employees communicate well.
  - 46% agree that creativity and innovation are rewarded.

## PERCEPTIONS ABOUT ORGANIZATION NURSES: ALL EMPLOYEES

# 2021 KEY FINDINGS: WELL-BEING

---

- The 2021 PH WINS survey included questions specifically about employees' mental and emotional well-being.

# WELL-BEING

- 19% of nurses rate their mental health as either “poor” or “fair.”

## OVERALL MENTAL & EMOTIONAL WELL-BEING NURSES: ALL EMPLOYEES
