ABOUT THIS REPORT

This report summarizes key findings about **emergency preparedness workers** from the 2021 Public Health Workforce Interests and Needs Survey (PH WINS).

- Key findings are organized by the main sections of PH WINS 2021:
 - Demographics
 - Workforce Characteristics
 - Staying & Leaving
 - Training Needs
 - Engagement & Satisfaction
 - Well-being

WHAT IS PH WINS?

Public Health Workforce Interests and Needs Survey

- PH WINS, a partnership between the de Beaumont Foundation and the Association of State and Territorial Health Officials (ASTHO), was fielded in 2014, 2017, and 2021.
- **First and only nationally representative source of data** about the governmental public health workforce.
- Supports the governmental public health workforce in **understanding their strengths and gaps** and informs future investments in workforce development efforts.

2021 METHODS

- PH WINS 2021 was distributed via web survey to **137,446 state and local governmental public health workers:**
 - 47 state health agencies
 - 29 big city health departments
 - 259 local health departments
- The PH WINS 2021 instrument had five domains: workplace environment, COVID-19 response, training needs, addressing public health issues, and demographics.
- One important change in 2021: non-permanent employees of centralized state health agencies were included in the nationally representative data set.

WORKFORCE DEFINITION

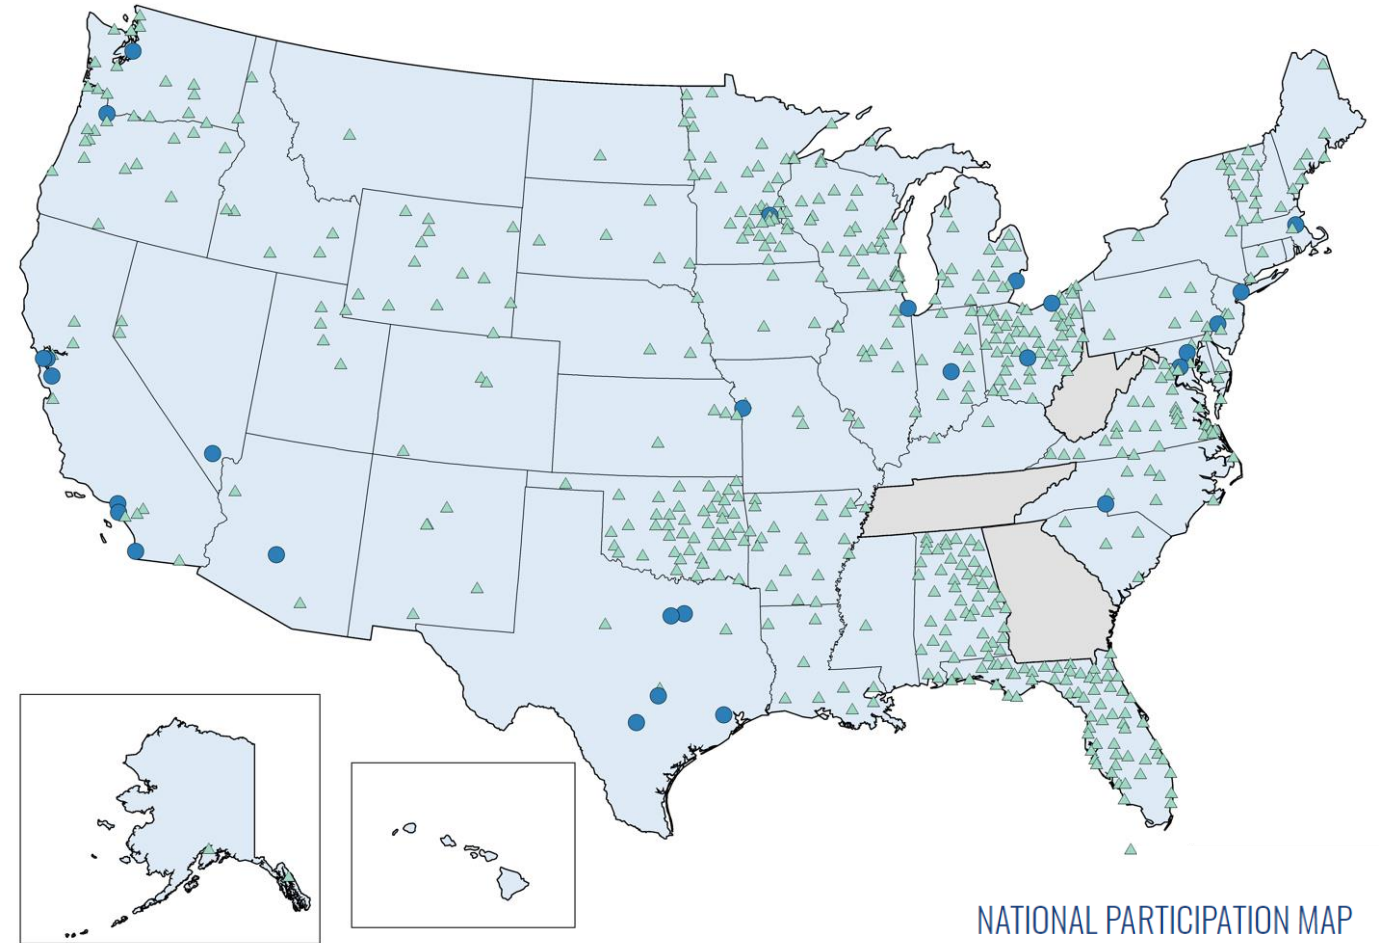

- Workforce groups are defined by a combination of responses to PH WINS questions on program area, job classification, education, and certifications.
- **Emergency preparedness workers** include PH WINS respondents who selected the following job classification(s) or program area(s):
 - Job classification: emergency preparedness/management worker
 - Program area: emergency preparedness

**PH WINS respondents were asked to report all program areas in which they currently serve. Workforce groups that are defined using program area include employees who work for the defining program area and may include employees who also work for additional program areas.*

NATIONAL PARTICIPATION

- Nationally, the survey was completed by 44,732 individuals, for a **35% response rate**.
- Response rates varied by frame:
 - **SHA: 34%**
 - **Big Cities: 28%**
 - **Other locals: 52%**
 - **Locals in Regions V and X*: 56%**

*HHS Regions V and X participated in the PH WINS for All pilot programming, recruiting all locals in those regions, regardless of size, to participate in PH WINS.

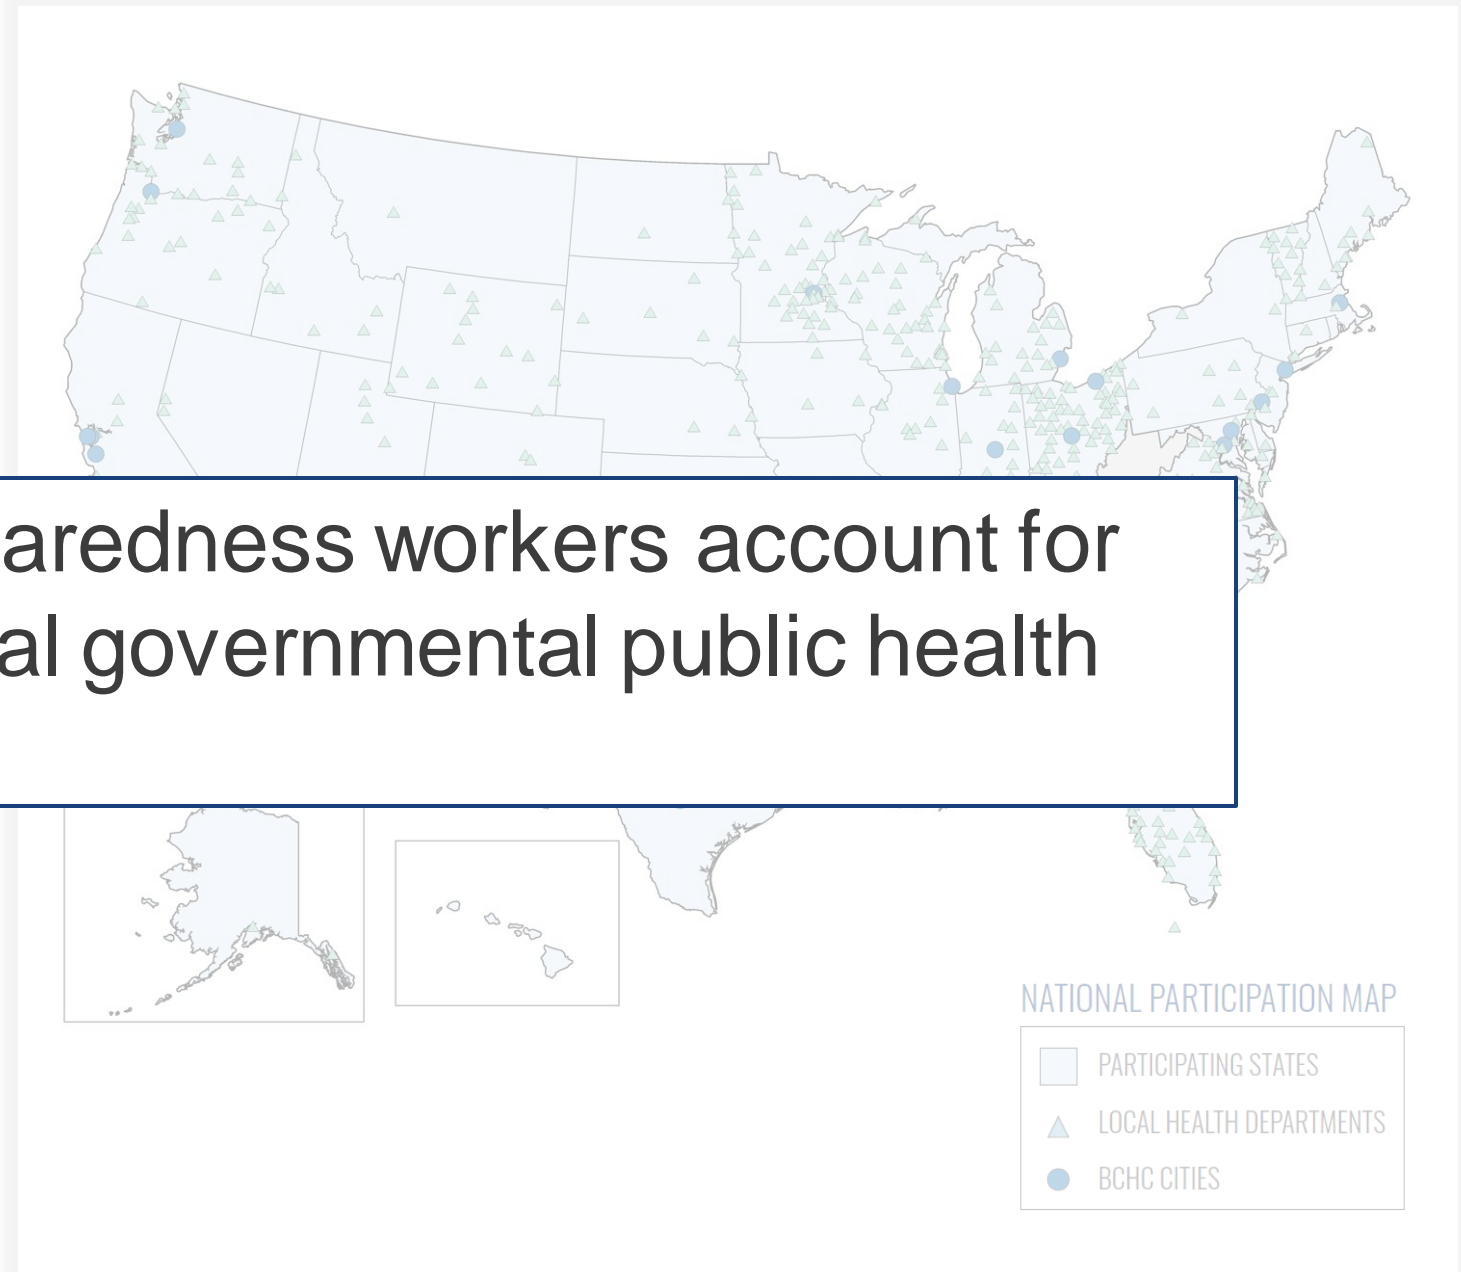

NATIONAL PARTICIPATION MAP

NATIONAL PARTICIPATION

- Nationally, the survey was completed by 44,732 individuals, for a **35% response rate**.
- Response by region:
 - Small: 20%
 - Big: 20%
 - Other locals: 52%**
 - Locals in Regions V and X*: 56%**

Emergency preparedness workers account for **6%** of the national governmental public health workforce.

2021 KEY FINDINGS: TRAINING NEEDS

- PH WINS respondents were asked to rate the day-to-day importance of and their own proficiency with 25-26 skill items, tailored for their supervisory level.
- Skills were collapsed into 10 strategic skill categories.
- A **training need** is a skill item reported as having **high importance, but low proficiency**.
- Identifying training needs can help support strategies to produce T-employees, or those who have depth in technical skills and breadth in strategic skills.
