- Key findings are organized by the main sections of PH WINS 2021:
  - Demographics
  - Workforce Characteristics
  - Staying & Leaving
  - Training Needs
  - Engagement & Satisfaction
  - Well-being

# WHAT IS PH WINS?

---

## *Public Health Workforce Interests and Needs Survey*

- PH WINS, a partnership between the de Beaumont Foundation and the Association of State and Territorial Health Officials (ASTHO), was fielded in 2014, 2017, and 2021.
- **First and only nationally representative source of data** about the governmental public health workforce.
- Supports the governmental public health workforce in **understanding their strengths and gaps** and informs future investments in workforce development efforts.

# 2021 METHODS

---

- PH WINS 2021 was distributed via web survey to **137,446 state and local governmental public health workers:**
  - 47 state health agencies
  - 29 big city health departments
  - 259 local health departments
- The PH WINS 2021 instrument had five domains: workplace environment, COVID-19 response, training needs, addressing public health issues, and demographics.
- One important change in 2021: non-permanent employees of centralized state health agencies were included in the nationally representative data set.

# SETTING DEFINITIONS

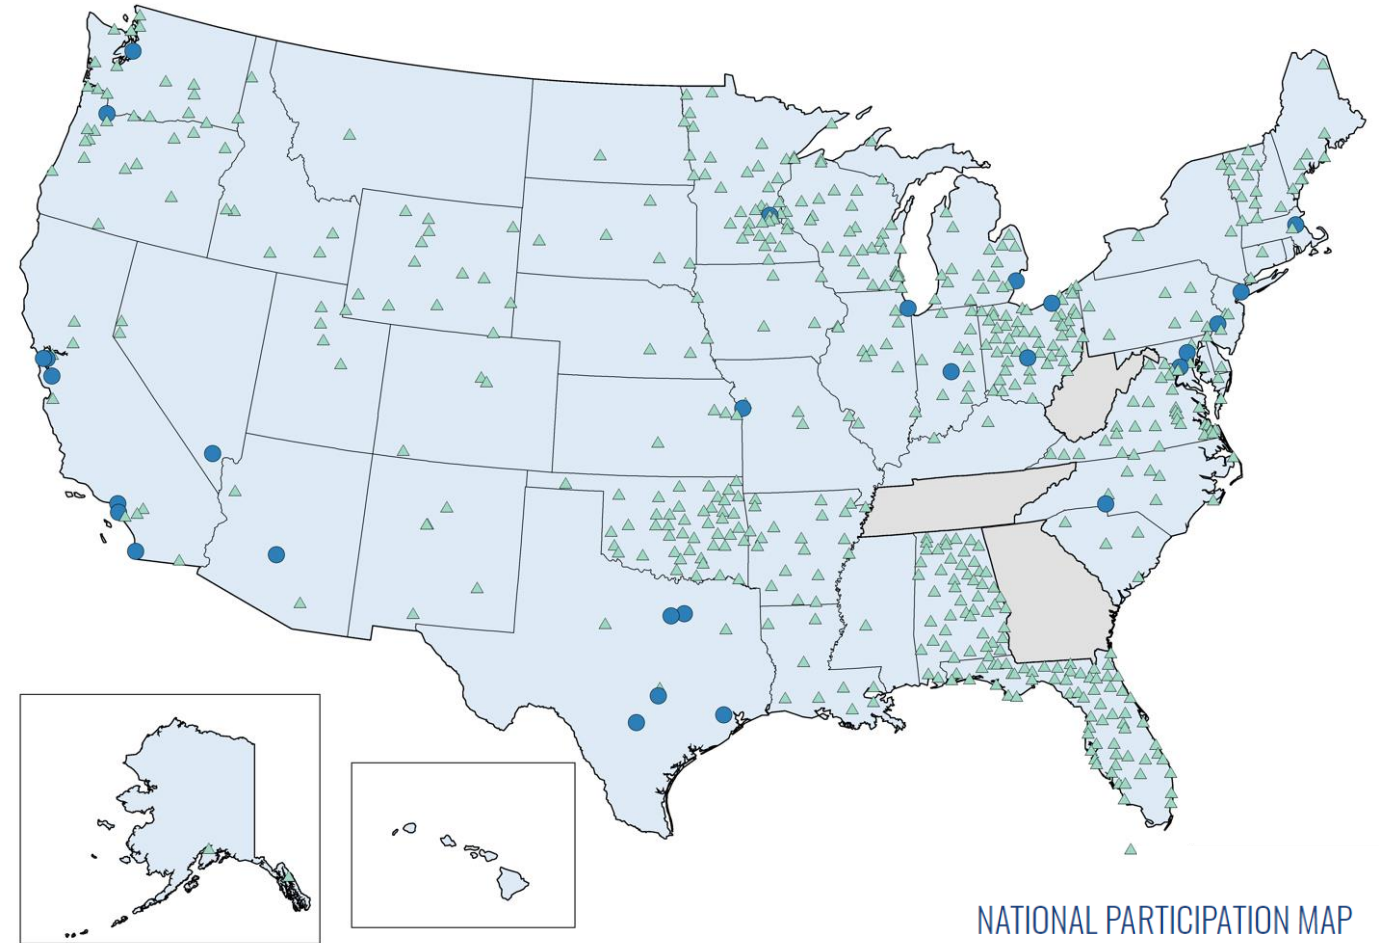

---

- **States** setting includes respondents in a State Health Agency Central Office.
- **Big Cities** setting includes respondents in a health department that is a member of the Big Cities Health Coalition.
- **Other locals** setting includes respondents in local health departments with staff > 25 and serving a population > 25,000.
  - This includes local health departments in HHS Regions V and X as well as local health departments in other regions.

# NATIONAL PARTICIPATION
